# OUR SERVICES

# CRYPTO MINING

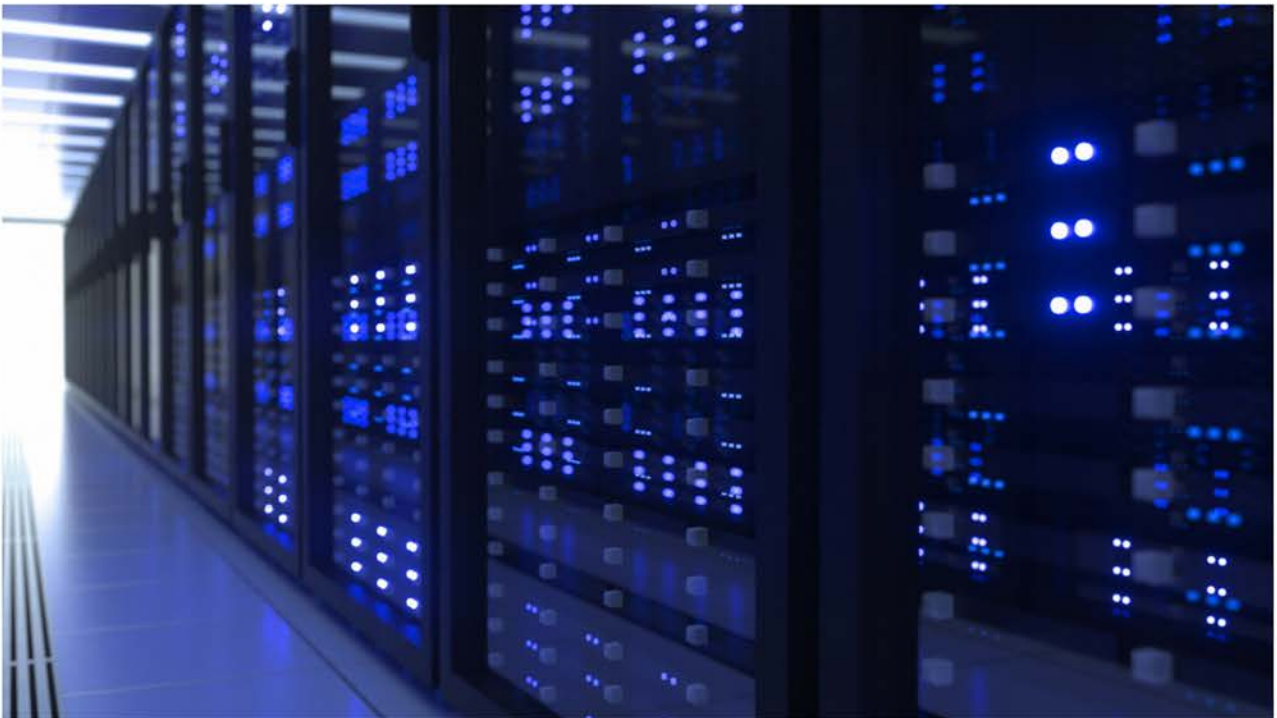

With a 2,000-square-foot warehouse in Singapore and a secondary facility in Hong Kong, Webull Investments is equipped to handle large crypto-mining operations.

Unlike paper money, Bitcoin and other cryptocurrencies are produced mathematically and held digitally. The people who voluntarily offer their computing power to secure these cryptocurrency networks are called miners. Cryptocurrencies don't have a central government or other so-called middlemen that decide about the future of the system.

# CRYPTO MINING

They are in fact digital, borderless democracies in which miners vote with their computing power to reach order and consensus.  
ADVANTAGE

# CRYPTO TRADING

Cryptocurrencies (Crypto) are virtual monies that are built on a Blockchain that typically use a decentralized network to carry out secure financial transactions. Crypto Trading involves speculating on its price movements via a spread betting or CFD trading account or buying and selling the underlying coins via an exchange. With Grant's investment plan, you are provided the benefits of trading in Crypto without owing any risk.

# FOREX TRADING

JOIN OVER 7.000.000 PEOPLE WITH THE WORLD'S LEADING HASHPOWER PROVIDER Forex is the world's most liquid and heavily traded market with over 5 trillion traded daily. The Forex market is decentralized, meaning there is no central location where trades are conducted, rather, Forex trading is conducted over the counter (OTC).

# STOCKS TRADING

Our commitment to excellence in stock trading is unparalleled. At the core of our strategy lies a sophisticated blend of in-depth market analysis, cutting-edge technology, and years of expertise, ensuring that we stay ahead in the dynamic world of stock trading. Our team of seasoned professionals is skilled in navigating both bullish and bearish markets, adeptly identifying opportunities that align with our clients' diverse investment goals. We employ a rigorous risk management approach, coupled with continuous market monitoring, to optimize returns while diligently safeguarding our clients' investments. At our firm, each client's financial success is our top priority, and we tailor our strategies to meet your unique financial objectives, whether you're seeking aggressive growth or steady income. Trust us to be your partner in navigating the complexities of the stock market, consistently striving to exceed your expectations and achieve outstanding investment performance.

## Exchange Traded Fund

### **Exchange-Traded Funds (ETFs)**

We specialize in offering a diverse range of ETF investment strategies that cater to the evolving needs of our clients. Our approach to ETF investing combines meticulous market research, advanced analytics, and a deep understanding of global economic trends to create portfolios that are both resilient and growth-oriented. We recognize that ETFs are a cornerstone for modern investors seeking diversification, lower costs, and flexibility. Our team rigorously analyzes various sectors and themes to handpick ETFs that offer optimal exposure and align with our clients' investment objectives. Whether you are inclined towards broad market indices, specific industries, commodities, or innovative thematic ETFs, our goal is to provide a well-rounded investment experience that balances performance with risk management. With our expertise, you can confidently navigate the ETF landscape, benefiting from its inherent advantages while minimizing the complexities involved. Trust our hedge fund to empower your investment journey with strategies that are as dynamic and diverse as the ETF market itself.

# NON FUNGIBLE TOKENS

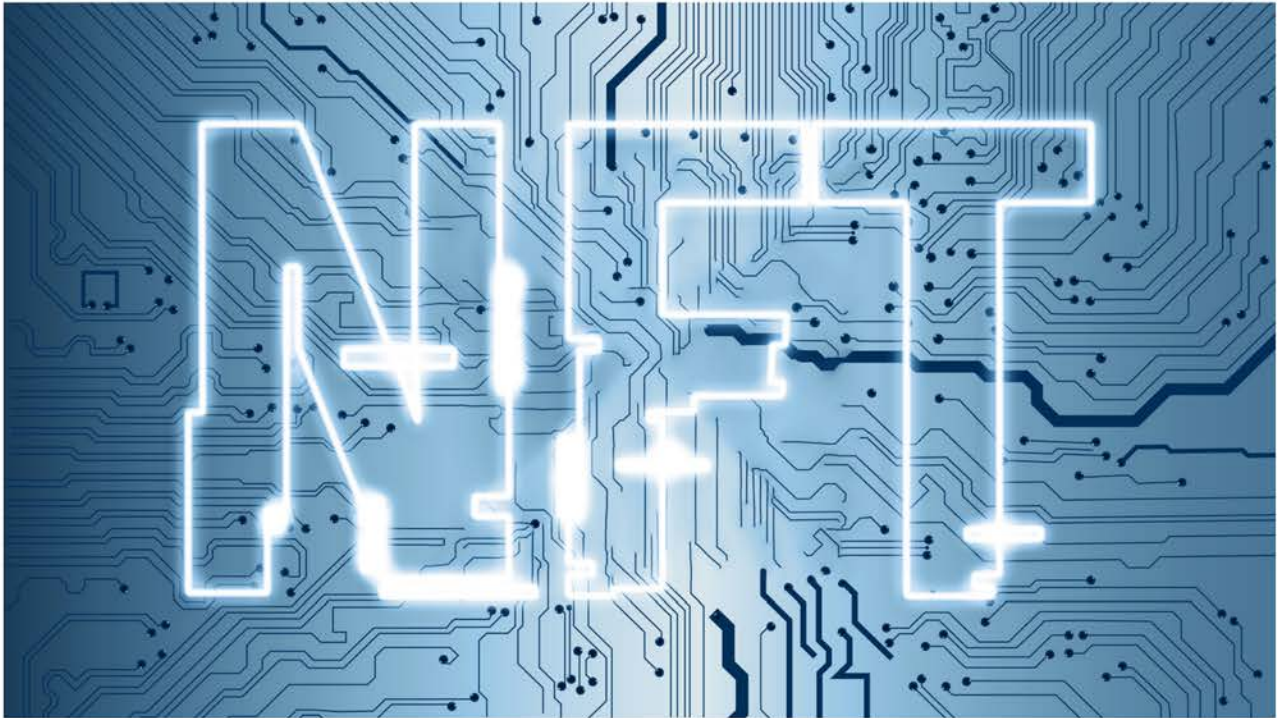

We operate NFT marketplace digital platforms for buying and selling NFTs. These platforms allow people to store and display their NFTs plus sell them to others for cryptocurrency or money. Some NFT marketplaces also allow users to mint their NFTs on the platform itself.

In exchange for a fee, our NFT marketplace will typically handle the transfer of an NFT from one party to the other.

The types of NFTs available, fees, payment options, permitted blockchains and other rules will depend on which investment plan you use.

# NON FUNGIBLE TOKENS

Given that Webull Investments spends so much time reviewing work before it's available for sale, investors can feel more confident in the quality. For their services, SuperRate charges 15% the first time an NFT is sold on the primary market. There is also a flat 3% of every transaction, which the buyer pays.

Our index shows that NFTs on the fractional markets have given back all their returns since secondary trading opened in September 2021. Fractional assets dipped to a zero percent return last week, there's been a slight bounce with a 50-100% return for all IPOs across Otis and Rally.

# GOLD TRADING

LET'S PARTNER AND BUILD YOUR FUTURE THROUGH GOLD INVESTMENTS

Invest with us and enjoy the benefits of vivid trade with up to 1:20 leverage. Our Trade experts choose a mix of spread betting and CFD Trading to speculate on Gold prices across various commodity exchanges such as LSE, NYME, and HKEX.

# GOLD TRADING

Gold Trading is a lucrative option for many Investment firms as it provides the perfect balance between low-risk and high returns trade. Throughout the global financial crisis, many investors chose to invest in gold as a hedge against economic turbulence. Although both gold and currency prices are largely determined by the market and economic events, the specific events influencing those values differ significantly.

# GOLD TRADING

## TRADING THE GOLD PRICE

We speculate on gold futures with spread bets and CFDs. We seldom invest directly in Gold. Our gold futures trading occurs 24 hours a day, five days a week, except between 10pm to 11pm (Singapore time).

Spread bets and CFDs enable us to speculate on the price of gold without having to take ownership or delivery of the underlying market. This means that they can be used to take a position on the price of gold rising (by going long), as well as falling (by going short).

# METAVVERSE

## METAVVERSE THE NEXT TECH REVOLUTION

START CREATING WEALTH BY COMBINING BLOCKCHAIN WITH METAVVERSE

Yes, you can invest in the metaverse. But the metaverse isn't a singular digital world; there are many metaverses to explore. For example, in the cryptocurrency space, two of the most popular are Decentraland (CRYPTO:MANA) and The Sandbox (CRYPTO:SAND). Both Mana and Sand are native currencies for their respective metaverse platforms, allowing users to purchase digital real estate, among other things. The tokens could increase in value as more users join these platforms.

# METaverse

However, investing in metaverse cryptocurrencies is challenging because it's hard to know which platform will ultimately be the most adopted one. They're not all the same, so meticulous research needs to be done before investing which is why we have an expert metaverse research team.
